November 14, 2019

## Busy Being Thankful?

Wow! We must be super busy this year, because this is only the second Beacon Bugle we have published. Oops! We do like to keep you informed about all the good things that are happening this year at Beacon.

I have to stop long enough to be thankful that we are so busy. We have lots of busy students, great new robotics projects, new lower-cost lighting, and a host of other things for which to be grateful. Thank you for your continued prayers and support! I'm so grateful for all of these things!
